

Full bucket protection

Reduce costs and extend lifetime

Mechanical side shrouds

Protect the side plates with mechanical side shrouds. One shroud for all positions.

Heel shrouds

Protect the outside bucket corner with heel shrouds.

Lip-shrouds

Protect the bucket lip with mechanical or weld on lip-shrouds.

ProMite Wear Buttons

Designed to be extremely resistant to shock and abrasion, no matter the climate.

A good choice for the environment

All of our products are produced in Sweden from local recycled scrap and exclusively with electricity from wind- and water-power produced in Sweden.

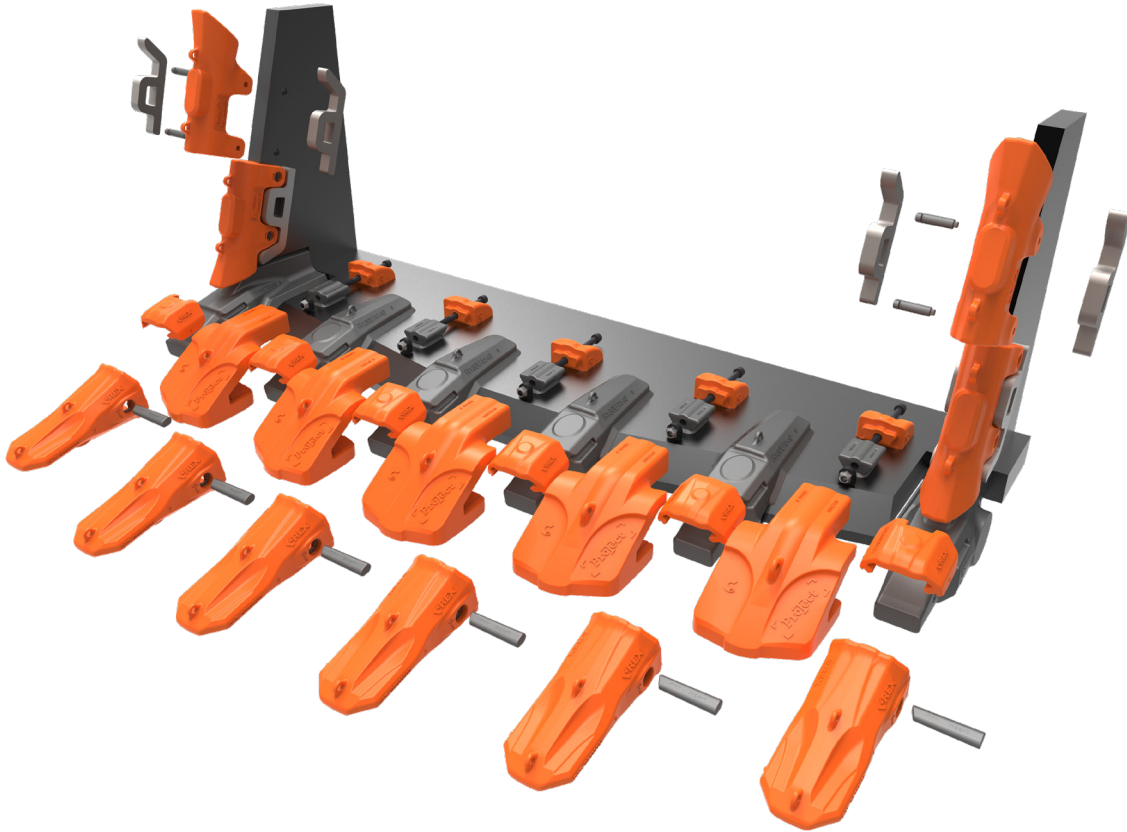

Add ProMite for extra protection

Designed to be extremely resistant to shock and abrasion. No pre or post heating is needed when welding.

Specification

Excavators and wheel loaders
